

STATE OF INDIANA

DEPARTMENT OF LOCAL GOVERNMENT FINANCE

INDIANA GOVERNMENT CENTER NORTH
100 NORTH SENATE AVENUE N1058(B)
INDIANAPOLIS, IN 46204
PHONE (317) 232-3777
FAX (317) 232-8779

April 7, 2008

The Honorable Gary R. Hensley, Sr.
Dearborn County Assessor
215 B West High Street, Room 203
Lawrenceburg, IN 47025

Dear Mr. Hensley:

RE: 2007 Annual Adjustment Ratio Study

The Department of Local Government Finance has reviewed the information and data you originally submitted for the Dearborn County 2007 ratio study as well as the supplemental information. The Department hereby approves the ratio study results based on the study presented without verifying the actual data in order to allow the preparation and delivery of the real property list to the County Auditor pursuant to IC 6-1.1-5-14.

Further studies may be warranted in order to ensure that the annual adjustment process was followed. Additionally, we would encourage you to use all possible sales, which lend greater validity to the sales ratio study.

In conjunction with our Data Analysis section, please continue to ensure your sales disclosure file database is compliant. For assessment year 2008, your 2006 and 2007 sales disclosure data files must be compliant with the rules of the DLGF before we will process the 2008 ratio study.

If you have any questions or concerns, please feel free to contact Barry Wood, the Assessment Division Director, at (317) 232-3762 or by e-mail at Bwood@dlgf.in.gov.

Sincerely,

Cheryl A. W. Musgrave
Commissioner

cc: Barry Wood, Assessment Director

March 13, 2008

Barry,

With regard to our recent conversation about the number of commercial and industrial improved assessments that changed from 2006 to 2007 in Dearborn County, I am not aware of any statutory requirement that changes must be made to assessments through the annual adjustment process. My understanding of the applicable statutes is that changes should be made if the results of the ratio studies indicate that changes should be made.

In the 2006 ratio study there were a total of 52 valid commercial and industrial improved sales. In the 2007 ratio study there were a total of 45 valid commercial and industrial improved sales. 25 sales occurred in 2004, 27 sales occurred in 2005, and 17 sales occurred in 2006. The 2004 sales were removed from the sales group and the 2006 sales were added to the sales group for the 2007 ratio study. No significant value changes were evident in the commercial and industrial market due to the removal of the 2004 sales and the addition of the 2006 sales. Anecdotal evidence from local realtors concludes similar findings in all markets. Any changes in assessments to commercial and industrial properties in Dearborn County were largely due to adjustments due to appeals, corrections of previous errors, and new construction. There were a high percentage of changes to the assessments of residential improved properties for 2007 but those changes were not attributable to a change in the market. Those changes were brought about by changes in the physical depreciation tables in an effort to bring outlying assessments in that property class closer to the center.

In 2006 major adjustments were made to land values and neighborhood multipliers to bring the assessments up to date with the market. Commercial land values along U.S. 50 increased from \$80,000 per acre to \$200,000 per acre. Neighborhood multipliers were increased for commercial properties by 30% in Lawrenceburg and 50% in Aurora. Those changes were the extremes but all neighborhoods whether residential, commercial, or industrial were scrutinized and adjusted according to the market in their respective areas.

Dearborn County has made an exhaustive effort over the last two years to insure that taxpayers have equitable assessments across all property classes. The DLGF's insistence that the majority of commercial and industrial assessments should change from one year to the next is contradictory to the empirical evidence derived through the sales of commercial and industrial properties in Dearborn County. We would appreciate your assistance in expediting the approval of the 2007 ratio study so that Dearborn County can move forward.

Regards,

Scott Potts
